

Changes made in app.py

1. in `@app.route('/', methods=['POST'])`  
to

`@app.route('/', methods=['GET', 'POST'])`

2. change we have to mention  
if `request.method == 'POST':`

3. changes made in `note = request.args.get("note")`

to

`note = request.form['note']`

## Changes made in homw.html

1. change we have to mention the path of app ('/') at end point and also mention the post method

`action=""`

to

`action = "/" method = "POST"`
